

**We have told you a little about Aly Sterling Philanthropy. Here's what other people have to say about us, and our presentations:**

I really like your outlook and long term perspective. I have seen all too often non-profits only thinking about immediate needs without developing a sustainable game plan.

Aly is one of the best speakers I have heard here in Toledo. Practical, info, some review, but people need to be reminded of what works. Good new ideas, too!

The format was well organized and focused. She was excellent because she has a thorough knowledge of all levels of fundraising, "grassroots" on up.

Excellent speaker; knowledgeable, engaging and very effective. Her personal experience with a range of non-profits was very helpful.

Wonderful presentation! Very well informed, many concrete suggestions, nice style.

Presenter did an excellent job engaging audience and sharing ideas.

Excellent! Really appreciate tools and practical advice.

It helped to energize me about development of funding opportunities.

Very good at relating complex concepts with everyday practice for a successful development outcome.

Excellent – well prepared. "Walks the walk!"

I brought my staff with me and they found it very informative and affirming. It brought a lot of discussion and incentives to investigate new ideas.
